

Testimonials for H&C Insulations Ltd

Testimonial 1

John and his team carried out the installation of Foil Backed Lagging wrapped in Stucco Embossed Aluminium Cladding to various water service pipework drops which had been installed during one of our Factory Extension Build Projects to a Prepared Meat Production Facility in Milton Keynes, The works carried out by H & C Insulations Ltd was completed on time & on budget to a high standard.

Darren Howell (Electrical & Mechanical Manager KDH Projects Ltd) September 2014

Testimonial 2

H & C Insulations Ltd was called on to install some Foil Backed Lagging wrapped in Polyisobutylene (PIB) to outdoor water ring main pipework installed in Scotand. As it was during the bad weather time was of the essence.

John provided a competitive quotation within the hour and deployed a team of guys to drive 500 miles the next day to carry out the installation over a 2 day period to avoid any delays to our Production Conversion Project to a Salmon Production Facility in Alness.

Darren Howell (Electrical & Mechanical Manager KDH Projects Ltd) Feb 2015
